# Karndean LooseLay

Karndean LooseLay is a range of luxury vinyl flooring featuring our K-Wave friction grip backing that holds the product in place. It creates a strong bond to the subfloor using a combination of weight and friction.

Perfect for temporary and permanent use, Karndean LooseLay is ideal if you are interested in changing out the flooring frequently or want to reduce sound passing to rooms below. What's more, it's quick and easy to install, requiring only the use of a light tackifier in the majority of installations.

Our Karndean LooseLay collection features a wide-ranging palette of colour such as the distressed hues of Hudson, the deep chocolate tones of Dover and the vibrant copper tones of Winchester. Choose from traditional oak looks, contemporary blends and exotic species or from our collection of popular stone effects including travertine, concrete and slate.

Our most recent addition is Karndean LooseLay Longboard, featuring a collection of 12 woods in a 1.5 metre extra-long format.

#### Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice. We hate to disappoint, and will always try to work with you to find an alternative design that you love just as much.
